1. INTRODUCTION

The library module in SA-SAMS was developed to ensure that all schools can administer the day to day running of a school library facility. This document serves to assist SA-SAMS users on how to use the library module. In more detail the document will explain how to:

- create and manage a school item catalogue
- manage library users
- issue, return and renew library items
- manage fines
- manage reservations
- manage history records for library users
- search items and view reports

Figure 2: Library System Settings page

This section provides an interface to capture general loan details for learners and staff (both educators and general staff members). The library administrator must set-up the number of loan days, maximum loan items, fine amount and fine interval on the general settings page to get started with the Library module.

1. **Short Loans:** Shortest periods an item can be loaned out to Library users (short loan periods are determined by the school library loan policies).
2. **Normal Loans:** Schools must determine an average number of days a user can loan an item out. The period must then be captured as normal loans on the library system.
3. **Number of days for extensions:** Maximum days allowed for a loan extension.
4. **Long Loans:** Extended period (of normal loans) for item loans. It is normally during school holidays that long loans apply.

5. **Fine Amount:** The amount of money which a user will be entitled to pay in case of exceeding the number of days allocated for a loan.
6. **Fine Interval:** A number of days after which a fine will be repeated if an item which is due for return remains unreturned.
7. **Issue Restrictions:** Captures all restrictions attached to the issue of an item. An item will not be issued if all restriction values are not met. There are 3 restrictions for issuing an item on this library system:
 - **Number of extensions per item :** Number of times a loan can be extended for an item
 - **Number of reservations per item:** Number of times an item can be reserved, e.g. one book can be reserved by 2 learners at a time.
 - **Number of reservations per user:** Number of items a user can reserve, e.g. one user can reserve 2 items at one time.
8. When all values have been captured, click **save settings** button and then **done** button to return to the main menu.

Note: If above settings are not captured then fine amounts, return dates, user and item restrictions will not apply.

9. To print settings, click on **print settings** button.

4. MAINTAIN LIBRARY ITEMS

4.1 Search for Library Items

1. To maintain the library items, click on **maintain library items** button

Figure 3: Search Criteria

2. To search for an item on the catalogue a user must at least enter one criteria

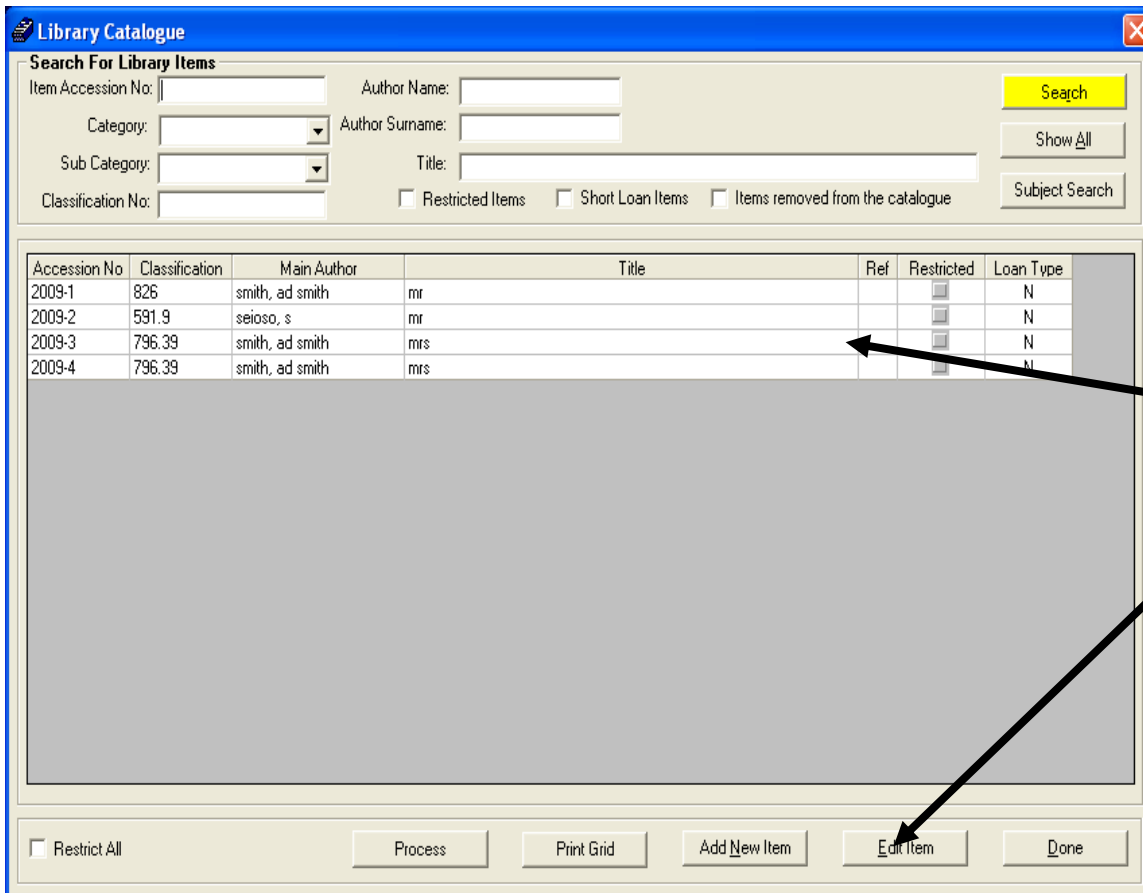

Figure 4: Search and Maintain Item page

3. User can search for an item by a using combination of the following search criterions :

- **Accession number:** A unique number that is allocated to an item when it is added to the catalogue. The number consists of the year of capture stroke (-) a number that is incremented per new item. e.g. 2009-1 for the first item that was captured in the year 2009. Accession numbers are automatically allocated by the system.
- **Category:** An item category can be a magazine, book, etc
- **Sub category:** A sub category can represent a sports, family, woman, etc. magazine within a magazine category
- **Classification no:** Subjects are classified according to their area of study. A classifications number is allocated to all subjects of study. The system will automatically allocate a classification number to each item when it is added to the catalogue.
- **Author name:** The author's first name.
- **Author surname:** the author's last name
- **Title:** the item name.
- **Restricted items, Short loan items and Items removed**
- **Subject search :** user can search by subject (i.e. Bonds)
